#### **SPECIFIC COMMENTS TO AUTHORS**

This is an interesting, nicely written review on the putative role of the polyamine agmatine as a fast-acting antidepressant. The authors searched and discussed numerous papers, made a good summary and got appropriate conclusions. Unfortunately, almost all cited studies were done in animals, not humans. Concerning english: Please give space between two words: Introduction: Between (MDD) and affects; MDD and exert, page 8/53 between and and is, and so on. Unfortunately, there are numerous such cases...
