First-line pazopanib in non-clear cell renal carcinoma ...https://ascopubs.org/doi/10.1200/JCO.2016.34.15_suppl.e16081

Background: Pazopanib is a standard first line treatment for metastatic clear cell renal cell carcinoma (RCC). Very few data on its activity in non-clear cell RCC (nccRCC) are currently available in the literature. We retrospectively analyzed the efficacy and toxicity of Pazopanib in an Italian multicenter cohort of nccRCC patients.

First-Line Pazopanib in Non-clear-cell Renal cArcinoMA ...<https://www.sciencedirect.com/science/article/pii/S1558767316303706>

Aug 01, 2017 Introduction. Non-clear cell renal carcinoma (nccRCC) is a widely heterogeneous disease, for which treatment is based merely on minor evidence, such as retrospective analyses, small phase II randomized and non-randomized studies, and subgroup analyses of expanded access programs (EAPs), or perspective trials including mixed histology. 1 The current recommendation for treating ...

Safety and Efficacy of Pazopanib in First-Line Metastatic ...<https://www.sciencedirect.com/science/article/pii/S155876731830096X>

Feb 01, 2019 Pazopanib has been approved for first-line treatment of patients with metastatic renal-cell carcinoma on the basis of clinical trials that enrolled only patients with adequate renal function. Few data are available on the safety and efficacy of pazopanib in patients with renal insufficiency.
