pulmonary nodular opacities: Topics by Science.gov

https://www.science.gov/topicpages/p/pulmonary+nodular+opacities.html - Kaposi Sarcoma (KS) is an angioproliferative tumor associated with human herpes virus 8 (HHV-8). Often known as one of the acquired immunodeficiency syndrome (AIDS)-defining skin diseases, pulmonary involvement in KS has only been discussed in a handful of case reports, rarely in a non-HIV patient. Herein we report the case of a 77 year-old ...

Home Page: Journal of Pediatric Surgery

https://www.jpedsurg.org x Pectus excavatum is the most common congenital thoracic deformity of the anterior chest and severe cases can result in pulmonary and cardiac dysfunction. The mainstay of treatment is the Nuss procedure, or minimally invasive repair of pectus excavatum (MIRPE). Pain control after MIRPE has been historically challenging and methods of analgesia have included thoracic epidurals, paravertebral ... MedWorm: Dilated Cardiomyopathy Research

https://medworm.com/research/dilated-cardiomyopathy.xml CONCLUSION: We identified or replicated at least four recurrent variants among cardiomyopathy patients, which could be founder disease mutations in the Arabic population, including a frameshift variant (c.1371\_1381dupTATCCAGTTAT) of unknown significance in the FKTN gene which seems to cause DCM in homozygosity, and HCM in heterozygosity.

Like father, like son: Pulmonary thromboembolism due to inflammatory or hereditary condition? Two case reports

Hannun P *et al.* Toxoplasmosis and thrombophilia in pulmonary thromboembolism

Pedro Hannun, Walter Hannun, Hugo Hyung Yoo, Lucilene Resende

**Abstract**

**BACKGROUND**

Venous thromboembolism (VTE), which includes deep venous thrombosis (DVT) and pulmonary embolism (PE), is a well-known causal disorder with high morbidity and mortality rates. Inherited or acquired conditions affecting components of coagulation and fibrinolysis systems have been linked to VTE pathogenesis as they may lead to a
