The WJGO Editor
World Journal of Gastrointestinal Oncology

Dear WJGO editor,

I am Jerome Glasser, an American-born individual and award-winning legal author who has been an international English language teacher and a person whose native language is English. I hereby certify that I have read the scientific paper entitled, **"Clinical Significance of Molecular Subtypes of Gastrointestinal Tract Adenocarcinoma"**, and I have found it to be an excellent expression in cogent, coherent English of certain scientific opinions espoused by its authors.

sincerely yours,

Jerome Glasser, jerry@jerryglasser.com
