[Molecular Characterization of the Microbial Flora Residing ...](#)

<https://www.researchgate.net/publication/51648625...>

Results Paired-end sequencing on Illumina MiSeq of root canal content samples showed that all 19 cases were positive for the presence of bacterial DNA which yielded data of 2083824 raw sequences ...

[Subgingival microbiome in smokers and non-smokers in ...](#)

<https://www.researchgate.net/publication/236045052...>

Up to 96 libraries were normalized and pooled for Illumina MiSeq paired-end sequencing with almost fully overlapping 250 base pairs reads. Exact ribosomal sequence variants (RSVs) were inferred ...

[Exploring Bacterial Diversity of Endodontic Microbiota by ...](#)

<https://www.researchgate.net/publication/51234899...>

The oral cavity and the gingival sulcus harbor highly diverse microbiota that can act as a source of microorganisms that can infect the compromised endodontic system (2)(3)(4)(5).

[Morita Award – Research - 2019 - International Journal of ...](#)

<https://onlinelibrary.wiley.com/doi/10.1111/ipd.12537>

Salivary bacterial microbiota analysis of 100 twin pairs was performed using high throughput amplicon sequencing method targeting V3-V4 region of the 16S rRNA gene. Results: There were no statistically significant differences between MZ and DZ twins in the prevalence of dmft and DMFT.

[Acute periodontal lesions \(periodontal abscesses and ...](#)

<https://aap.onlinelibrary.wiley.com/doi/full/10.1002/JPER.16-0642>

Jun 21, 2018 - A radicular groove, for example, might mimic a vertical root fracture in the radiograph. 120 If perforations and fractures are not identified, the diagnosis should proceed to a second phase consisting of full-mouth periodontal assessment, including probing depth, attachment level, bleeding on probing, suppuration and mobility, as well as ...
