

Dear Reviewer,

We are very thankful for your thoughtful and thorough review.

We have revised our manuscript entitled “Diabetic Kidney Disease: Are the Reported Associations with Single-Nucleotide Polymorphisms Disease-Specific?” submitted to the World Journal of Diabetes in the light of your useful suggestions and comments.

We have sent once more our paper to the native language editor in Scribendi and we believe it have improved the paper to the level of your acceptance.

Yours faithfully,

Assoc. Prof. Marek Saracyn, MD, PhD
Deputy Head, Department of Endocrinology
and Radioisotope Therapy
