Endo-hepatology: An emerging field

Hogan DE *et al.* Endoscopic ultrasound applications in hepatology

Daniel E Hogan, Michael Ma, David Kadosh, Alisha Menon, Kana Chin, Arun Swaminath

Abstract

Gastroenterologists have long been spearheading the care of patients with various forms of liver disease. The diagnosis and management of liver disease has traditionally been a combination of clinical, laboratory, and imaging findings coupled with percutaneous and intravascular procedures with endoscopy largely limited to screening for and therapy of esophageal and gastric varices. As the applications of diagnostic and
