Hospital Universitario Reina Sofía

Ms. Alicia Marmolejo Alcalá, secretary of the Ethics Committee of Research of Córdoba,

CERTIFY that,

That project titled: "Resultados a corto plazo de la resección robótica de tumores hepáticos: experiencia inicial de una sola institución", lead by Dr. Francisco Javier Briceño Delgado, of the General Surgery service, was evaluated and approved at the Ethic Committee of Research of Córdoba meeting, held on April 27th, 2021.

Once considered by the members of the committee, the aforementioned project, respects the fundamental principles established in the Declaration of Helsinki of 1964 of World Medical Association, and subsequent amendments, and at the Europe Convention Council of 1996, related to Human Rights and Biomedicine. According to the proved knowledge of their authors about the background and the state of the art of the topic, the definition of the aims and the proposed methodology, the committee establishes the viability in all terms of the research project, estimating that the results could be of great interest.

In Córdoba, December 2nd, 2021
