

Milan, 23 December, 2021

To whom it may concern,

I herein confirm to be a native English speaker. I provided a comprehensive editing service for the reviewed Manuscript entitled "The relation between skeletal muscle volume and prognosis in rectal cancer patients undergoing neoadjuvant therapy" by Paola De Nardi, Alessandro Giani, Giulia Maggi, and Marco Braga. The edit has achieved Grade A: no language polishing required after editing.

Should you require any additional information, please do not hesitate to contact me.
