

December 30, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 6602-review.doc).

**Title:** Peculiar characteristics of portal-hepatic hemodynamics of alcoholic cirrhosis

**Authors:** Massimo Bolognesi, Alberto Verardo, Marco Di Pascoli

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 6602

The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated.
2. Revision has been made according to the suggestions of the reviewers:
  - (1) In the portal-hepatic hemodynamics section, we modified the paragraph about splanchnic vasodilatation, as requested. A subsection heading highlighting the methodology for measuring portal hypertension was introduced, as suggested.
  - (2) The section on alcoholic cardiomyopathy was rewritten to improve clarity, as recommended.
  - (3) The abstract has been simplified, focusing on the key sections in the table, as suggested.
  - (4) We had the paper extensively revised by a mother tongue English teacher, with experience in scientific English. We are now confident that the manuscript will fulfill the requirements of *World Journal of Gastroenterology*.
3. References were updated and typesetting was corrected.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Massimo BOLOGNESI, MD, PhD
