Manuscript Title: Modified mesenchymal stem cells in cancer therapy: a smart weapon requiring upgrades for wider clinical applications. (World Journal of Stem Cell code n°: 66282)

To Whom It May Concern

With this letter, I undersigned **dr. Gonzalo Almanza**, skilled Native English Speaker and Senior Research Assistant at the University of California San Diego, confirm that the manuscript corresponding to the information detailed above meets language quality for publication requirements (Grade A). The text was edited to correct style and grammatical errors and it was delivered back to the Authors. Authors are free to accept or reject my comments and suggestions. I make no claims about scientific issues included and described in the manuscript.

Sincerely,

dr. Gonzalo Almanza

A handwritten signature in dark ink, appearing to read 'Gonzalo Almanza', written in a cursive style.
