

## **Biostatistics Review Certificate for World Journal of Orthopedics**

I, Dr. Octavian Andronic, the corresponding author of the paper entitled “Long-term Outcomes of the Four-Corner Fusion of the Wrist: A Systematic Review”, certify that I performed the statistical analysis of the paper and am sufficiently trained and experienced in conducting statistical analysis and critical appraisal for systematic reviews. I am currently enrolled in a 6-year Ph.D. Program at the Anglia Ruskin University in Cambridge United Kingdom and my previous publications are a living evidence of my expertise.

Octavian Andronic, MD
