Subject: Camden Health Research Initiative: Sangita Phadtare

Sangita,

I am very pleased to report that your proposal titled “A Precision Medicine Approach for the Treatment of Helicobacter Pylori Infection” has been selected for funding. You and your team are among the first round of awardees for the Camden Health Research Initiative. The competition for this award was very intense, as we received a high number of outstanding proposals. We heartily congratulate you and your team on this achievement.

.....X

Kind regards,

Stephen Robishaw, MPA
