[PDF] [Biomechanical comparison of internal fixations in ...](#)https://applications.emro.who.int/imemrf/Saudi_Med...

of dynamic hip screw (DHS) and proximal femoral nail anti-rotation (PFNA) for the treatment of 3 types of osteoporotic femoral intertrochanteric fracture (OFIF) by modeling, and virtual reduction with finit...

[PDF] [Optimal Selection System of Internal Fixation Methods ...](#)<https://pdfs.semanticscholar.org/01ac/6949b5591faeb57ef07572c2f63099dc5d89.pdf>

evaluation algorithm is compiled to select the optimal internal fixation method. This study is completed in 3/20/2012 at Harbin University of Science and Technology. Result: As the application of...

[Biomechanical evaluation of internal fixation implants for ...](#)<https://www.sciencedirect.com/science/article/pii/S0169260720315479>

Nov 01, 2020 - Several fixation styles for FNFs have been analyzed numerically by the finite element method. Five groups of models were developed with different FNFs fixation implants, including dynamic...

Author: Wei Zeng, Yin Liu, Xue Hou Publish Year: 2020

[PDF] [Biomechanical comparison of internal fixations in ...](#)<https://www.semanticscholar.org/paper/...>

OBJECTIVE To compare the biomechanical characteristics of dynamic hip screw (DHS) and proximal femoral nail anti-rotation (PFNA) for the treatment of 3 types of osteoporotic femoral intertrochanter...

[Biomechanical consideration of total hip arthroplasty ...](#)<https://www.sciencedirect.com/science/article/pii/S1350453312001798>

May 01, 2013 - Currently, the most commonly adopted treatment of femoral intertrochanteric fracture is internal fixation. The incidence of failure of this type of fixation is 1-5%, depending on disease...

[Finite element analysis of InterTan for the treatment of ...](#)<https://www.researchgate.net/publication/332166851...>

On this basis, a three-dimensional finite element model of internal fixation for Evans-Jensen IV intertrochanteric fracture of femur was established. The stress and microstrain distribution of Von ...

Surgical Selection of Unstable Intertrochanteric Fractures ...

<https://www.hindawi.com/journals/bmri/2021/8875370> ▾

Due to the instability of unstable intertrochanteric fractures, the selection of a suitable internal fixation has always been a challenge for orthopedic surgeons. This study is aimed at comparing the...

[PDF] Finite element analysis of two cephalomedullary nails in ...

<https://josr-online.biomedcentral.com/track/pdf/10.1186/s13018-019-1468-3>

obliquity intertrochanteric fractures, as shown through the finite element analysis. These findings from our study may provide a reference for the perioperative selection of internal fixations. Keywords:...

Finite element analysis of two cephalomedullary nails in ...

<https://pubmed.ncbi.nlm.nih.gov/31823801>

The displacement in the two models was similar, but the stresses in the implant and bone were reduced with the ZNN. Therefore, the ZNN implant may provide biomechanical advantages over PFNA-II in revers...
