Naples, 17th April 2021

The manuscript 'Intraoperative use of indocyanine Green (ICG) Fluorescence Imaging in Rectal Cancer Surgery: the state of the art' by Dr. R. Peltrini was carefully re-read by a professional translator, Gabriella Granata.

Prof. Granata is an Italian born teacher employed by the Ministry of Education, freelance translator, EFL author and test developer with a bilingual (English/Italian) background, a Master degree in Languages and a diploma in translation studies. Prof. Granata has been revising medical papers and legal documents for over twenty five years as well as collaborating with various university departments in the drafting of articles in the English Language.

Prof. Gabriella Granata

A handwritten signature in dark ink, appearing to read 'G. Granata', written in a cursive style.
