should be answered; (3) Format: There is 1 tables and 2 figures; (4) References: A total of 39 references are cited, including 11 references published in the last 3 years; (5) Self-cited references: There is no self-cited reference. 2 Language evaluation: Classification: Grade C. A language editing certificate issued by Medjaden was provided. 3 Academic norms and rules: The authors provided the Written informed consent and CARE Checklist (2016). No academic misconduct was found in the Bing search. 4 Supplementary comments: This is an unsolicited manuscript. No financial support was obtained for the study. The topic has not previously been published in the WJCC. 5 Issues raised: The authors did not provide original pictures. Please provide the original figure documents. Please prepare and arrange the figures using PowerPoint to ensure that all graphs or arrows or text portions can be reprocessed by the editor. 6 Recommendation: Conditional acceptance.

Company Editor-in-Chief: I have reviewed the Peer-Review Report, the full text of the manuscript, and the relevant ethics documents, all of which have met the basic publishing requirements of the World Journal of Clinical Cases, and the manuscript is conditionally accepted. I have sent the manuscript to the author(s) for its revision according to the Peer-Review Report, Editorial Office's comments and the Criteria for Manuscript Revision by Authors. However, the quality of the English language of the manuscript does not meet the requirements of the journal. Before final acceptance, the author(s) must provide the English Language

| 01 | The 'ARTICLE HIGHLIGHTS' section provides comments for | [N] |
| 21 | original articles in accordance with the specified format. | |
| | The 'REFERENCES' section lists the references in the Vancouver | [Y] |
| 22 | style. This style uses Arabic numeral in-text citations based on the | |
| | order of the first appearance of a source in the text. For citations | |
| | where the author's name is indicated in the text, a superscript | |
| | number should be placed following the name (<i>i.e</i> , "Pang <i>et al</i> "). For | |
| | citations where no author is indicated, a superscript number should | |
| | be placed at the end of the sentence. Respective examples are: "Ma ^[1] | |
| | reported", "Pan et al ^[2-5] indicated"; "PCR has a high | |
| | sensitivity ^[6,9] ." No superscript numbers are used when the | |
| | | |

| | reference number is described in the text; for example, "The experimental method used has been described in reference [8]." The style of reference citations in tables is the same as that in the text (<i>e.g.</i> , Pan <i>et al</i> ^[2-5] , please see reference [8]). | |
|----|---|-----|
| | | |
| 23 | Journal references have been verified to ensure that there are no duplicate references and that the PMID numbers are correct. For references not yet included in PubMed: the name of Chinese journals is spelled out using Chinese Pinyin, with the first letter of each word capitalized (<i>e.g., Shijie Huaren Xiaohua Zazhi</i>); the name of journals in other languages are listed according to indexing information retrieved from Google. Book references are presented with all the information relevant to the electronic version. | [Y] |
| 24 | The number of cited references is appropriate for the article type, as follows: <u>Commentary:</u> no less than 50; <u>Review:</u> no less than 100; <u>Article:</u> no less than 30/26; <u>Case Report and Letter to the Editor:</u> no less than 1. | [Y] |
| 25 | The ethics-related statements are provided in accordance with the manuscript type (<i>e.g.</i> , Manuscript NoInstitutional review board statement, Manuscript NoAnimal care and use statement, <i>etc.</i>). | [Y] |
| 26 | The names of the peer reviewers and the scientific editor are present at the end of the paper (<i>e.g.</i> , P-Reviewer: Hugot D S-Editor: Wang JL). | [Y] |

| 27 | The order and numerical labeling of tables and figures is consistent | [Y] |
|----|---|-----|
| | with their appearance and presentation in the text. Symbols in | |
| | tables (e.g., +, -, ×, \div , *) correctly correspond to the definitions in the | |
| | footnotes. Only one legend is provided for each multi-panel figure | |
| 27 | consisting of color graphs, black and white graphs, or line graphs | |
| | that depicts data of the same theme. For example: Figure 1 | |
| | Pathological changes in atrophic gastritis tissue before and after | |
| | treatment. A:; B:; C:; D:; E:; F: | |
| | Split pictures include flow charts, line graphs, histograms, and | [Y] |
| 28 | graphs including text. Unsplit pictures include meta-analysis | |
| | diagrams, PCR amplification curves, and survival curves. | |
| 29 | The author(s) highlighted the changes made to the manuscript | [Y] |
| 29 | according to the peer-reviewers' comments. | |
| 20 | The responses to the peer-reviewers' comments are consistent with | [Y] |
| 30 | the changes made to the manuscript. | |
| | The revised manuscript is provided (file name: Manuscript | [Y] |
| | NoReview; e.g., 870- Review). | |
| 31 | The letter of peer-reviewers' comments is provided (file name: | |
| 51 | Manuscript NoPeer-review(s); e.g., 870-Peer-review(s)). | |
| | The response letter is provided (file name: Manuscript | |
| | NoAnswering reviewers; <i>e.g.</i> , 870-Answering reviewers). | |
| | The related ethics and relevant documents are provided, such as (1) | [Y] |
| 32 | Approved grant application form(s) or funding agency copy of any | |
| | approval document(s) (file name: Manuscript NoGrant application | |
