29 April 2014

Dear Editor,

This is to certify that the manuscript "Spontaneous and antiviral induced cutaneous lesions in chronic hepatitis B virus infection" by Ioana Grigorescu and Dan L. Dumitrascu from the Iuliu Hatieganu University of Medicine and Pharmacy has been revised for the accuracy of the English language by myself, and I can guarantee that the level of the English language in this manuscript meets the international standards.

Our company is specialized in professional medical translations – we have translated and/or revised a great number of English manuscripts that were accepted as such to be published in prestigious journals. Also, I have been holder of a professional translator certificate for many years and practiced the profession of translator in the field of medicine for a long time.

Ioana Robu

President
