Herbal and Dietary Supplement-Induced Liver Injuries in ...

<https://www.sciencedirect.com/science/article/pii/S1542356518300107>

Sep 01, 2018 · Herbal and dietary supplement-induced liver injury is more severe than other types of DILI and re-exposure is more likely. Increasing awareness of the hepatotoxic effects of herbal and dietary supplements could help physicians make earlier diagnoses and reduce the risk of serious liver damage.
