

## PEER-REVIEW REPORT

**Name of journal:** *World Journal of Cardiology*

**Manuscript NO:** 67919

**Title:** Role of genetic testing in cardiomyopathies: A primer for cardiologists

**Provenance and peer review:** Invited manuscript; Externally peer reviewed

**Peer-review model:** Single blind

**Reviewer's code:** 05927046

**Position:** Peer Reviewer

**Academic degree:** MD

**Professional title:** Doctor

**Reviewer's Country/Territory:** China

**Author's Country/Territory:** Greece

**Manuscript submission date:** 2021-05-31

**Reviewer chosen by:** AI Technique

**Reviewer accepted review:** 2021-06-01 01:42

**Reviewer performed review:** 2021-06-02 02:41

**Review time:** 1 Day

<b>Scientific quality</b>	<input type="checkbox"/> Grade A: Excellent <input type="checkbox"/> Grade B: Very good <input checked="" type="checkbox"/> Grade C: Good <input type="checkbox"/> Grade D: Fair <input type="checkbox"/> Grade E: Do not publish
<b>Language quality</b>	<input type="checkbox"/> Grade A: Priority publishing <input checked="" type="checkbox"/> Grade B: Minor language polishing <input type="checkbox"/> Grade C: A great deal of language polishing <input type="checkbox"/> Grade D: Rejection
<b>Conclusion</b>	<input type="checkbox"/> Accept (High priority) <input type="checkbox"/> Accept (General priority) <input checked="" type="checkbox"/> Minor revision <input type="checkbox"/> Major revision <input type="checkbox"/> Rejection
<b>Re-review</b>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<b>Peer-reviewer</b>	Peer-Review: <input checked="" type="checkbox"/> Anonymous <input type="checkbox"/> Onymous

### **SPECIFIC COMMENTS TO AUTHORS**

The manuscript reviewed the genetic testing in cardiomyopathies. They introduced the main types of cardiomyopathy ,and the problems that may be encountered when doing genetic testing. It provides very useful information for understanding the application of genetic testing in cardiomyopathy. However, the presentation of genetic testing methods and the genetic testing methods commonly used in different cardiomyopathy is very limited in the full manuscript. Therefore, it is suggested to supplement the content of genetic testing techniques and the application of each method. This will make the article more complete and provide more valuable information.
