World Journal of Gastroenterology

Dear Dr. Ghosh

We are pleased to resubmit the manuscript Ms. No. 68101 entitled, “**Artificial Intelligence in Gastroenterology: A State-of-the-Art Review**”.

We have carefully reviewed the Editors’ and reviewers comments and have revised the manuscript and resubmitted two versions of revised documents (with the track changes ON and with track changes OFF).

The manuscript, as submitted or its essence in another version, is not under consideration for publication elsewhere and will not be published elsewhere either in whole or in part, nor have the findings been posted online while under consideration by the *World Journal of Gastroenterology*. The author has no commercial associations or sources of support that might pose a conflict of interest.

We hope these modifications will be met with your approval. Thank you very much.

Sincerely yours,

Chayakrit Krittanawong, MD

Reviewer #1:

Scientific Quality: Grade B (Very good)

Language Quality: Grade A (Priority publishing)

Conclusion: Accept (General priority)

Specific Comments to Authors: The researchers did a detailed review on AI algorithms being employed till now for various diagnosis in field of gastroenterology. The subject matter shows good understanding of integration of medical and technology field. Still authors missed mentioning keywords.

Response: *Thank you for your suggestions. We have carefully reviewed the editorial suggestions and revised the entire manuscript accordingly.*

We hope these modifications will be met with your approval. Thank you very much.
