1. Please add p-value for Table 1 and Table 2 2. Please add p value for each individual complication in Table 3 3. Please use fisher's exact test when any expected frequency is less than 5 4. Please keep the decimal point in the same position for the average and standard deviation. For instance, Age in Table 1, write 51.0 ± 9.5 , instead of 51 ± 9.5 .
