SPECIFIC COMMENTS TO AUTHORS

The paper can be of interest to the readership. Assessment with the described symptoms can be related to several conditions so it is important to report such cases to expand the d.d. scenario. The paper is logically organized and images are of great value. Please check some sentences you have reported: "To our knowledge, searches of databases, including Pubmed, Wanfang and CNKI, have only revealed six reports of lime aspiration, which included seven adolescents and one adult, and most of them inhaled hydrated lime": 6=7+1? Please expand the discussion quoting: Tracheobronchopathia Osteochondroplastica: A Case Report Illustrating the Importance of Multilevel Workup Clinical, Endoscopic and Histological Assessment in Diagnosis of an Uncommon Disease. Riva G et al. Am J Case Rep. 2019 Jan 18;20:74-77. doi: 10.12659/AJCR.911859.
