

March 12, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: Auburger12q24-Minireview-Revision.doc).

Title: The 12q24 locus association with type 1 diabetes: *SH2B3* or *ATXN2*?

Author: Georg Auburger, Suzana Gispert, Suna Lahut, Özgür Ömür, Ewa Damrath, Melanie Heck, Nazlı Başak

Name of Journal: *World Journal of Diabetes*

ESPS Manuscript NO: 6932

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

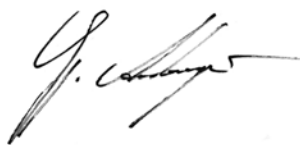

2 Revision has been made according to the suggestions of the reviewer

The resolution of Figure 1 is now at 300 dpi, its format is 85 mm in height and 126 mm in width.

3 References and typesetting were corrected, with PMID and DOI. Problems arose with several references (marked by “??”), where PubMed does not provide DOI and our university does not have a subscription (or online subscription does not exist) to provide you with the first page. I do not have more time to dedicate to this complicated issue.

Thank you again for publishing our manuscript in the *World Journal of Diabetes*.

Sincerely yours,

Georg Auburger, Univ.-Prof. Dr. med.
