

CERTIFICATE OF ENGLISH EDITING

Date: July 23, 2021

This document certifies that the manuscript titled **"Increased levels of lactate dehydrogenase and hypertension are associated with severe illness of COVID-19"** (first revision for World Journal of Clinical Cases) was edited for proper English language, grammar, punctuation, spelling, and overall style by one or more of the highly qualified native English-speaking editors at 8HMED. Neither the research content nor the authors' intentions were altered in any way during the editing process.

Documents receiving this certification should be English-ready for publication. However, the author can accept or reject our suggestions and changes. To verify the final 8HMED edited version, please visit our verification page. If you have any questions or concern about this edited document, please contact 8HMED at support@8hmed.cn

Manuscript title:	Increased levels of lactate dehydrogenase and hypertension are associated with severe illness of COVID-19
First Author:	Zhen-Mu Jin
Corresponding Author:	Xian-Gao Jiang
Code:	20-2004-1500-14F2

8HMED offers services in paper evaluation, professional translation, language editing and publication support.

8HMED comprises a network of more than 100 editors with a biomedical background. All our editors must meet strict selection criteria. We require that each editor has completed or is attending a PhD graduate program at one of the top universities in the world. He or she must have proven written communication skills and undergo a comprehensive training period under the instruction of a managing editor. All editors are native English speakers.

We provide high quality services at the comparable price in the industry. For more information, please visit www.8hmed.cn or contact us by email at support@8hmed.cn.
