SPECIFIC COMMENTS TO AUTHORS

1. Abstract: "We performed total surgical resection of the left hip and ." There is a missing sentence which needs correction. 2. Pathologic findings are better to be added in Fig. 7. 3. Discussion: "Children in and out several hospital, all for the diagnosis of transient synovitis of the hip or ischemic necrosis of femoral head, conventional MRI signal is visible on a large number of liquid, the morphology of the free body without specificity (figure 3), a study shows that dynamic t1-weighted imaging can be used with intravenous chelate, synovial enhancement and enhance cartilage tumour without change, Synovial tissue and chondroma were further distinguished [14]." There are grammar problems which need correction.
