

## PEER-REVIEW REPORT

**Name of journal:** *World Journal of Clinical Cases*

**Manuscript NO:** 69748

**Title:** Carbon ion radiotherapy for synchronous choroidal melanoma and lung cancer: a case report

**Reviewer's code:** 06140395

**Position:** Peer Reviewer

**Academic degree:** MD

**Professional title:** Doctor

**Reviewer's Country/Territory:** India

**Author's Country/Territory:** China

**Manuscript submission date:** 2021-08-12

**Reviewer chosen by:** AI Technique

**Reviewer accepted review:** 2021-08-15 16:42

**Reviewer performed review:** 2021-08-28 23:18

**Review time:** 13 Days and 6 Hours

<b>Scientific quality</b>	<input type="checkbox"/> Grade A: Excellent <input type="checkbox"/> Grade B: Very good <input checked="" type="checkbox"/> Grade C: Good <input type="checkbox"/> Grade D: Fair <input type="checkbox"/> Grade E: Do not publish
<b>Language quality</b>	<input type="checkbox"/> Grade A: Priority publishing <input checked="" type="checkbox"/> Grade B: Minor language polishing <input type="checkbox"/> Grade C: A great deal of language polishing <input type="checkbox"/> Grade D: Rejection
<b>Conclusion</b>	<input type="checkbox"/> Accept (High priority) <input type="checkbox"/> Accept (General priority) <input checked="" type="checkbox"/> Minor revision <input type="checkbox"/> Major revision <input type="checkbox"/> Rejection
<b>Re-review</b>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<b>Peer-reviewer statements</b>	Peer-Review: <input checked="" type="checkbox"/> Anonymous <input type="checkbox"/> Onymous Conflicts-of-Interest: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

## **SPECIFIC COMMENTS TO AUTHORS**

The most common radiotherapy modalities are plaque brachytherapy and proton radiotherapy. Carbon ion beams are biologically advantageous over proton radiotherapy in treating relatively resistant tumors. The carbon ion radiotherapy is also effective with acceptable toxicity for early-stage and locally advanced non-small cell lung cancer. In this study, the authors reported a case of concurrent choroidal melanoma and lung cancer that was successfully treated with carbon ion radiotherapy. This case is interesting, and well described. Minor comments: 1. The manuscript should be edited carefully. A minor language polishing should be corrected, and many blanks between the words are missing. Please take attention to this. 2. The figures are missing from the text. Please check and provide the figures.
