

The Editorial Office of World Journal of Gastroenterology

Thank you very much for the response to our manuscript “Extrahepatic complications to cirrhosis and portal hypertension. Hæmodynamic and homeostatic aspects” by Søren Møller, Jens H. Henriksen and Flemming Bendtsen.

We have revised the manuscript according to the Editorial suggestions. Thus we have added a list of keywords and a short summary as a core tips.

With respect to the references, these are made by Reference Manager, and we have downloaded the format of World Journal of Gastroenterology from the internet. There seems to be a discrepancy between this format and the current one, and we kindly ask you to adjust the format according to the style. Moreover, we kindly ask to add PMID and DOI numbers since we do not have this information in our Reference Manager system.

Moreover, we attach a certificate for professional English language editing. We also attach Copyright statement forms and Figures in PowerPoint format.

We sincerely hope that you will take care of the final technical editing of our manuscript with respect to references etc.

Thank you once again for inviting us to write this review paper.

On behalf of the authors,  
Yours sincerely,

Søren Møller, MD, DMSc, Professor,
