SPECIFIC COMMENTS TO AUTHORS

This review is very interesting. In this review, the authors analyze the mechanisms of action of TCM and explain research and applications of TCM in the treatment of H. pylori, and discussed the problems confronting the use of TCM for the treatment of H. pylori and propose possible solutions. The study provides appropriate treatment program combining TCM and Western medicines, they have immune regulation and synergistic antibacterial effects. After a minor revision, this review can be accepted. 1. A minor language polishing should be corrected. 2. Please change the abbreviation "HP" to H. pylori, which is a standard abbreviation for Helicobacter pylori . 3. The reference list should be updated. Many references are from local journals of China. Please check and update the references. 4 The main text, include the tables should be edited carefully.
