SPECIFIC COMMENTS TO AUTHORS

This is an interesting manuscript. Your team has done a great job. Everything looks good. I have few minor comments and few confusions please clear these. In the physical examination section term “corpus callosum” has been used. Please confirm whether it is a correct terminology. Laboratory section: please mention specifically what blood routine tests were done as different institutes and reader might have different understanding for routine blood works. Besides the excision, did you use any medications? There are few grammatical error, please correct those errors.

SPECIFIC COMMENTS TO AUTHORS

Dear author, Thanks for the paper, is very well written and the scientific quality is very good. Before accepting the paper I suggest to modify the paragraphs as in the editor wants (Backgrounds, Case presentation, Discussion and Conclusion). I would do a sole case presentation paragraph, cancelling all the others (chief complaints, history of present illness, etc...). Thanks and good work.
