3. **Figures:** Abbreviations are not allowed in the Figure title. For the Figure Legend text, abbreviations are allowed but must be defined upon first appearance in the text. Example 1: A: Hepatocellular carcinoma (HCC) biopsy sample; B: HCC-adjacent tissue sample. For any abbreviation that appears in the Figure itself but is not included in the Figure Legend textual description, it will be defined (separated by semicolons) at the end of the figure legend. Example 2: BMI: Body mass index; US: Ultrasound.

Abbreviations have been defined in the figure or in the text, Figures have been uploaded based on individual components in a powerpoint file. Both the diagram and the legends can be manipulated separately

The figures were constructed using Graphpad Prism. These are original figures taken from the software. The vertical and horizontal axis are 1point in thickness. The font is 12pt Times New Roman. A power point file has been created to include the figures

Tables

A Microsoft word file has been created to include the tables. Abbreviations attached to the tables are included below the table.
