Dear Dr Karunasinghe

Re: <b>Ethics ref:</b>	<b>NTY/05/06/037/AM02</b>
Study title:	Role of SNP's in genes coding for antioxidant enzymes glutathione peroxidase and manganese superoxide dismutase in modulating prostate cancer risk

This letter is to confirm receipt of the annual progress report for this study, submitted on 22 February 2013. HDEC approval for the study is re-confirmed for the period 25 February 2013 to 25 February 2014.

The Northern A Health and Disability Ethics Committee will be in contact with you within 15 days of this date if it requires further information on any matter relating to this annual progress report, or if it wishes to reconsider its approval for the study. In the absence of such contact you should assume that the annual progress report has been accepted and approved without comment. No separate letter will be sent confirming this.

Please don't hesitate to contact us for further information.

Yours sincerely

Sharon Joe  
Administrator  
Health and Disability Ethics Committees
