SPECIFIC COMMENTS TO AUTHORS

Thank you for giving me this opportunity to review this article. The article is well written, though I have some serious concerns regarding the article. Abstract: 1. The article consists of several incomplete sentences and lack of fluency in the language. 2.

Need to inform about the patient's demographic details. 3. The conclusion should be more concise, self-explanatory, and drawn on the basis of study reports. Manuscript 1.

The case report should follow these guidelines <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2597880/> 2. Follow the journal author guidelines and resubmit.
