

Object: Non-Native Speakers of English Editing Certificate

I declare that the authors of the present manuscript are non-native English speakers but are familiar with English language writing given their experience in scientific and medical publishing (especially H. Kadhim, MD, PhD, DCH and C. Liefferinckx, MD, PhD). Furthermore, given the multilingualism of our country, most authors speak English fluently.

A handwritten signature in black ink, appearing to read 'Julien Catherine', with a long horizontal stroke extending to the right.
