

Dear reviews:

Thanks for your works. We have realized our mistake and correcting it.

Dong-Qiu Dai

*MicroRNA-320a suppresses tumor progression by targeting PBX3 in gastric cancer and is downregulated by DNA methylation*

Dear editor,

I am the corresponding author of the above article published in World Journal of Gastrointestinal Oncology. 2019 Oct 15; (Manuscript NO: 48527, DOI: 10.4251/wjgo.v11.i10.842). We recently found that the result of the 0h group in the BGC-823 cell wound scratch assay in Figure 3. Part B. was misapplied during the submission process. Therefore, we are writing to apply for the correction of Figure 3. Part B. The revised Figure 3B was uploaded in the attachment. This error will have no influence on the entire interpretation of the results or conclusions in this study. We feel deeply sorry for this mistake.

We apologize for any inconvenience caused by this mistake. We are looking forward to hearing from you at your earliest convenience.

With best wishes and regards,

Vice president and Professor
