### Specific Comments to Authors:

1. In the Introduction section, the drawbacks of each conventional technique should be described clearly.

**Reply :** I don't understand what the conventional technology you refer to includes. There is no definite treatment for emphysema pyelonephritis at present. The author believes that the specific treatment method should be determined according to the actual situation.

2. You should emphasize the difference between other methods to clarify the position of this work further.

**Reply:** This article focuses on six cases of emphysematous pyelonephritis encountered in clinic. Different treatment methods are adopted to achieve a good prognosis. The focus is not on the treatment methods. There is not much introduction about the treatment methods. Thank you for the problems mentioned by the editor, which need to be further studied.

3. The Wide ranges of applications need to be addressed in the Introduction

**Reply:** I changed it in the introduction

4. Add the advantages of the proposed system in one quoted line for justifying the proposed approach in the Introduction section.

**Reply:** The author will not understand what the advantages of the proposed system are, and I hope the editor can clearly indicate it.

5. In the introduction, the findings of the present research work should be compared with the recent work of the same field towards claiming the contribution made. , kindly provide several references to substantiate the claim made in the abstract (that is, provide references to other groups who do or have done research in this area).

**Reply:** I think the general situation of emphysematous pyelonephritis should be widely introduced in the introduction, because at present, most of its emphysematous pyelonephritis lies in case reports, and the work in the same field has been described in the discussion part

6. Authors can refer to some latest related works from reputed journals like IEEE/ACM Transactions, Elsevier, Inderscience, Springer, Taylor & Francis, etc.

**Reply:** Thank you for the magazine provided by the editor. I have already referred to it

7. Make sure maximum of five keywords are listed below the abstract.

**Reply:** There are three words in this article: key words

8. List out the contributions and the organization of the paper below the introduction paper.

**Reply:** I have modified it

---

9. Add some recent references.

Reply: I have modified it

10. Try to concise the conclusion.

Reply: I have modified it

11. Discuss the future plans with respect to the research state of progress and its limitations

Reply: I have modified it
