-------------------------------------	---

SPECIFIC COMMENTS TO AUTHORS

I see there are earlier studies in this regard:

<https://err.ersjournals.com/content/29/156/190166>

<https://bmcmedicine.biomedcentral.com/articles/10.1186/s12916-016-0671-x>

Therefore the authors are urged to explain more in the introduction why this study is important and what new findings it adds to the literature. Besides, please re-write the whole paper in accordance with the PRISMA 2020 checklist, which is much more comprehensive than the 2009 version. All the items and sub-items of PRISMA 2020 should be addressed in the revision. And also do not forget to use the GRADE system to assess the quality of evidence.
