

Dear Editor.

The comments you submitted, I read in detail and give treatment, please review again!

1. language errors in the abstract section, history of consultation, and management section have been corrected.
2. terminology of cold medicine has been replaced.
3. generalization in the conclusion section has been corrected according to the article content.
4. literature has been reviewed again and the report of PRP in an experimental setting regarding the application to liver tissue regeneration has been added to the article.
