

## Format for ANSWERING REVIEWERS

December 05, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 7404-review.doc).

**Title:** Deep endometriosis with pericolic lymph node involvement: case report and literature review

**Author:** Andrea Cacciato Insilla, Monnalisa Granai, Grazia Gallippi, Patrizia Giusti, Sabina Giusti, Simone Guadagni, Luca Morelli, Daniela Campani

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 7404

The manuscript has been improved according to the suggestions of reviewers:

1) Format has been updated

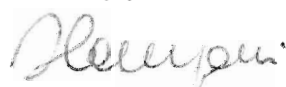

2) Revision has been made according to the suggestions of the reviewer

1. Follow up of the patient has been added
2. We better clarified the distribution of the disease at the moment of the first surgical operation in 2004, with the presence of some endometriosis foci in both ovaries, the extra-pelvic abdominal peritoneum and in the pouch of Douglas.
3. We reported the pharmacological therapy followed by the patient during the period between 2004 and 2011.
4. According to the suggestions received by the reviewer we focused more on all the different kind of therapeutical approches, either surgical or pharmacological, used nowadays and we made our observations about the outcome and the risk of recurrence for the patient.

3) References and typesetting were corrected. The report has been forwarded to the "American Journal Experts" for a linguistic revision.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Daniela Campani, MD,

Department of Surgical Pathology

University Hospital of Pisa
