

Institutional Review Board Approval Form or Document

Buenos Aires, December 27th, 2021

Estimated BPG

In the realization of the manuscript entitled "**Nicotinic receptors modulate antitumor therapy response in triple negative breast cancer cells**" by Drs. Español, Sanchez, Salem, Obregon and Sales, no human samples or patients were used, so the authorization of the **Institutional Review Board** is not required.

Regards

A handwritten signature in black ink, appearing to read 'Español', with a long horizontal stroke extending to the right.
