SPECIFIC COMMENTS TO AUTHORS

A short paragraph on situs inversus totalis should be added in the introduction. Then, it should be noted how rare congenital tuberculosis and situs inversus association are seen. I recommend that authors benefit from the following articles on situs inversus totalis: Akbulut S, Ulku A, Senol A, Tas M, Yagmur Y. Left-sided appendicitis: review of 95 published cases and a case report. World J Gastroenterol. 2010;16(44):5598-602. Akbulut S, Caliskan A, Ekin A, Yagmur Y. Left-sided acute appendicitis with situs inversus totalis: review of 63 published cases and report of two cases. J Gastrointest Surg. 2010;14(9):1422-8. In the discussion section, it would be appropriate to add a comment on whether mortality is associated with situs inversus.
