

## CARE Checklist – 2016: Information for writing a case report

Topic	Item	Checklist item description	Line/Page
Title	1	The words “case report” should be in the title along with the area of focus	Yes
Key Words	2	Four to seven key words—include “case report” as one of the key words	Yes
Abstract	3a	Background: What does this case report add to the medical literature?	Yes
	3b	Case summary: chief complaint, diagnoses, interventions, and outcomes	Yes
	3c	Conclusion: What is the main “take-away” lesson from this case?	Yes
Introduction	4	The current standard of care and contributions of this case—with references (1-2 paragraphs)	Yes
Timeline	5	Information from this case report organized into a timeline (table or figure)	Yes
Patient Information	6a	De-identified demographic and other patient or client specific information	Yes
	6b	Chief complaint—what prompted this visit?	Yes
	6c	Relevant history including past interventions and outcomes	Yes
Physical Exam	7	Relevant physical examination findings	Yes
Diagnostic Assessment	8a	Evaluations such as surveys, laboratory testing, imaging, etc.	Yes
	8b	Diagnostic reasoning including other diagnoses considered and challenges	Yes
	8c	Consider tables or figures linking assessment, diagnoses and interventions	Yes
	8d	Prognostic characteristics where applicable	Yes
Interventions	9a	Types such as life-style recommendations, treatments, medications, surgery	Yes
	9b	Intervention administration such as dosage, frequency and duration	Yes
	9c	Note changes in intervention with explanation	Yes
	9d	Other concurrent interventions	Yes
Follow-up and Outcomes	10a	Clinician assessment (and patient or client assessed outcomes when appropriate )	Yes
	10b	Important follow-up diagnostic evaluations	Yes
	10c	Assessment of intervention adherence and tolerability, including adverse events	Yes
Discussion	11a	Strengths and limitations in your approach to this case	Yes
	11b	Specify how this case report informs practice or Clinical Practice Guidelines (CPG)	Yes
	11c	How does this case report suggest a testable hypothesis?	Yes
	11d	Conclusions and rationale	Yes
Patient Perspective	12	When appropriate include the assessment of the patient or client on this episode of care	Yes
Informed Consent	13	Informed consent from the person who is the subject of this case report is required by most journals	Yes
Additional Information	14	Acknowledgement section; Competing Interests; IRB approval when required	Yes
