#### **SPECIFIC COMMENTS TO AUTHORS**

This manuscript was a very interesting review with a very novel perspective on iatrogenic causes of Takotsubo cardiomyopathy. Most data depend on various previous papers, and a general explanation of TCM sounds good. Therefore, the content of this manuscript is very fruitful. I recommend this article for acceptance.

**SPECIFIC COMMENTS TO AUTHORS**

1.This manuscript describes the most contents of Takotsubo Cardiomyopathy and is a comprehensive review. The title is “Iatrogenic Takotsubo Cardiomyopathy: A Comprehensive Review”, although this review includes the contents of MEDICATION-INDUCED TCM and PROCEDURE-INDUCED TCM, but also contains a lot of other contents, so maybe they can change the title to “Takotsubo Cardiomyopathy: A Comprehensive Review” 2.The molecular mechanism of Takotsubo Cardiomyopathy could be added.
