

## INFORMED CONSENT STATEMENT

Name of Journal: World Journal of Clinical Cases

Manuscript Type: ORIGINAL ARTICLE

Retrospective study

Serum ferritin levels in children with attention deficit hyperactivity disorder and tic disorder: A retrospective study based on a large Chinese sample

Caiyun Tang, Fang Wen

Informed constant statement: Patients were not required to give informed consent to the study because the analysis used anonymous data that were obtained after each patient agreed to treatment by written consent.

Sincerely,

Fang Wen
