

RESPONSE TO REVIEWERS

Manuscript Number: 76356

TO THE EDITOR

Reviewer #1:

Scientific Quality: Grade B (Very good)

Language Quality: Grade B (Minor language polishing)

Conclusion: Accept (General priority)

Specific Comments to Authors: The paper is accepted.

Reviewer #2:

Scientific Quality: Grade B (Very good)

Language Quality: Grade C (A great deal of language polishing)

Conclusion: Minor revision

Specific Comments to Authors: This is a nice letter complementary to the original case in the aspects of MRI and immunohistochemical features facilitated differential diagnosis. However, the manuscript should be well edited. Recommended edits can be found in the attached file.

Response: The letter has been revised as recommended in the attached file
