

Informed consent for publication of my medical case

Huixquilucan, State of Mexico,
As of March 31, 2022

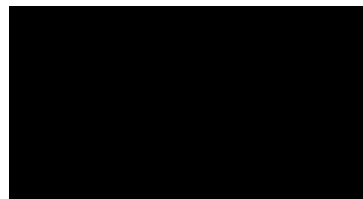

I _____ and declare that I have been informed _____ in a case report called "**Loeys-Dietz syndrome without aortic aneurysm; clinical findings and treatment challenges**". This is a manuscript supported by Hospital Angeles Lomas, Mexico.

I understand that this publication will benefit the medical community to support the diagnosis and treatment of people with the same disease as me and will consist of describing the condition that led to my diagnosis along with images of studies that were performed to me without my face being published in any format; In addition to a review of the literature of the syndrome.

They have explained to me that the registered information will be confidential, and that my name as a patient will not be known by other people outside the authors of this article.

I am aware that there will be no economic compensation for participation in this study, and that this information could benefit society given the recent description of this syndrome. Yes. I voluntarily agree to have my case published and have received a copy of this document.

Patient's fir

If you have any questions, you can contact Dr. Shely Azrad Daniel, lead author of the case report, shelyazrad@hotmail.com.
