

Dear,

Thank you for your reviews and constructive comments.

Vaguely written sentence:

“However, we have clinical experience with PRES presenting in a 58-year-old woman with ovarian cancer in the presence of paraneoplastic antibodies (namely, antibodies to collapsin response-mediator protein-5), detected in cerebrospinal fluid. This association may point to another cause for this condition^[4]”.

We reformulated, and now reads:

„However, Barber et al have clinical experience with PRES presenting in a 58-year-old woman with ovarian cancer in the presence of paraneoplastic antibodies (namely, antibodies to collapsin response-mediator protein-5), detected in cerebrospinal fluid. This association may point to another cause for this condition^[4]”.

We believe this is a better version.

Thanks again.
