

Informed Consent Statement

Name of Journal:

World Journal of Orthopaedics

Title:

Utilising The Impact Of Covid-19 On Trauma Throughput To Adapt Elective Care Models For More Efficient Trauma Care

Manuscript ID:

77602

Informed consent statement: Patients were not required to give informed consent to the study as the analysis utilised anonymised data of *all* patients admitted to the department within the study timeframe. Data was obtained from the Hospital Information Support System (HISS) via a coding system with no patient identifiable parameters.

Mr Rohi Shah
