

Point-by-point response to the Reviewers' comments

Reviewer 1

Thank you for reviewing our manuscript. Concerning the comments:

1. The objectives of the review have been added to the abstract.
2. The abbreviations have been modified and used throughout the whole manuscript.
3. The references have been modified according to the journal style.

Reviewer 2

Thank you for reviewing our manuscript. Concerning the comments:

The paper has been revised to be more concise. Differences and similarities among previous papers are described under the section of Simulation-Based Training In Gastrointestinal Endoscopy, while Experiences in Simulation-Based Mastery Learning for Endoscopy Training describes past papers with their distinctive methods and results regarding the application of SBML for endoscopy training.
