SPECIFIC COMMENTS TO AUTHORS

Dear Authors, Thank you for conducting this study entitled "Simulation-based mastery learning in gastrointestinal endoscopy training" for possible publication in the esteemed journal "World Journal of Gastroenterology". The following comments need to be addressed to improve the presentation of the article: 1. The authors should add the objectives of the review in the abstract. 2. We found that the authors use frequent words like "simulation-based endoscopy training". We suggest using abbreviations of such terms throughout the whole manuscript. 3. Some references need to be revised according to the journal style.

SPECIFIC COMMENTS TO AUTHORS

This study is a review of the endoscopic education system using a simulator. Table 3 summarizes the papers on simulation-based endoscopy training. And this table is well organized. The introduction and conclusion are clearly described. However, the rest of this paper appears to summarize and enumerate past papers based on the author's subjective logic. And it's redundant. Please state similarities and differences among previous papers.

SPECIFIC COMMENTS TO AUTHORS

Dear Authors, Thank you for revising this study entitled "Simulation-Based Mastery Learning in Gastrointestinal Endoscopy Training" for possible publication in the esteemed journal "World Journal of Gastrointestinal Endoscopy". The following two points should be revised before publication: 1. The title should be written with a capital letter of the first word and small letters of other words as per journal style. 2. I didn't see the figure 1 and the three tables. I saw them in the previous draft. This might be due to a technical problem.
