SPECIFIC COMMENTS TO AUTHORS

Elegant article that, in my opinion, needs to be entered data on the ventilatory parameters used and the initial (or continuous) sweep used in ECMO.

SPECIFIC COMMENTS TO AUTHORS

Nicely written case report and given the rarity is worthy of publication. I have 2 points to make: 1) PaO₂/FiO₂ is a RATIO and therefore should be mentioned ONLY as a number. Ratio should NOT have units. The authors have mentioned PaO₂/FiO₂ of 39 mmHg. The unit "mm Hg" may please be deleted. 2) The authors mention that ECMO is an "unconventional" treatment for ARDS. This word may be deleted , since it is an established therapy for ARDS not responding to other forms of treatment.
